SLEEP
MEDICINE

FACIAL
PAIN

TMJ
DISORDERS

HEADACHES
&
MIGRAINES

It is our pleasure to welcome you to the Dental Sleep Center at Keller Dentistry. We are dedicated to providing you with the highest quality of care to improve your health by helping you achieve quiet, restful sleep. We want your visit to be as comfortable and informative as possible.

Your first visit with Dr. Keller will be a comprehensive one. He will get to know you, your concerns, and your goals. Please allow for a good hour for this visit. Together, we will review your medical and sleep history followed by a detailed exam of your mouth and throat as well as your TMJ and related muscles and nerves.

Dr. Keller will review with you his findings and a customized treatment plan will be generated that will be presented to you and communicated with your physician. A step-by-step road map will be generated to get you from your current status to the final destination of improved sleep and health.

Please bring the following items to your appointment:

- o Completed New Patient forms
- o Sleep Study within the last year
- o Physician's written orders (prescription for the oral appliance)
- o Any type of oral appliance you may already have
- o Any panoramic x-rays from your dentist taken within the last 2 years
- o Your current medical insurance card

We welcome the opportunity to be of assistance. Please call if you have any questions or require additional information.

Sincerely,

Keller Dentistry
